Subject: while I'm out...

Tony and Jennifer– I very much appreciate y'all Acting for me while I'm out. Here are some specific items that I thought were worth highlighting.

For both of you

- Remember to complete the award information (Table to Cesar by June 11, award write-ups to me by June 22).
- Please make sure you are fully implementing the expectations for Visual Management Systems (see email I forwarded to you on June 1).
- If there's a WET meeting, which would likely be on a Monday afternoon, I may need you to cover for me. Stay posted for a potential email from Cesar.

Tony

- Attached is my weekly report for this week, and I've already uploaded to Sharepoint. I'm also attaching a template to use for the next two weeks.
- Please make 404 assumption your highest priority.
 - o Jeaneanne is getting briefed on June 7, and you'll need to set-up another meeting with her to occur no later than June 21. Please use the attachment as the format for briefing her, and you (not Phil) should take the lead.
 - o Obviously Phil and Matt can help, but you should plan to participate in the regular internal meetings (Tue at 11:00) and any calls with FDEP (not yet scheduled).
 - o EPA may need to follow-up with Rob Tawes of the U.S. F&WS (404/679-7142, Robert.Tawes@fws.gov) to provide a status as soon as next week. Phil and Matt should participate as they've been involved with previous calls.

Jennifer

- You should be prepared to respond to Scott's group regarding their request for a timeline for completing enforcement cases (I'm not sure of a deadline, but we may get pressured to lock it down very soon). I'm supportive of a tiered-system if that's what you want to do, but it needs more fleshing-out. If you haven't already done so, please work with staff to develop your recommendation. We'll need to have our Front Office's support, so please follow-up with Cesar to run it by him before you share with Scott's group.
